 - A Modern Approach to Middleware with Chronicle
 - Optimise Trading Systems for the Cloud with Microservices

SAVE THE DATE: CHRONICLE PRODUCT ROADMAP EVENT 2024

We are thrilled to announce following a successful event last year, we are back with our product roadmap event on **22nd October 2024!**

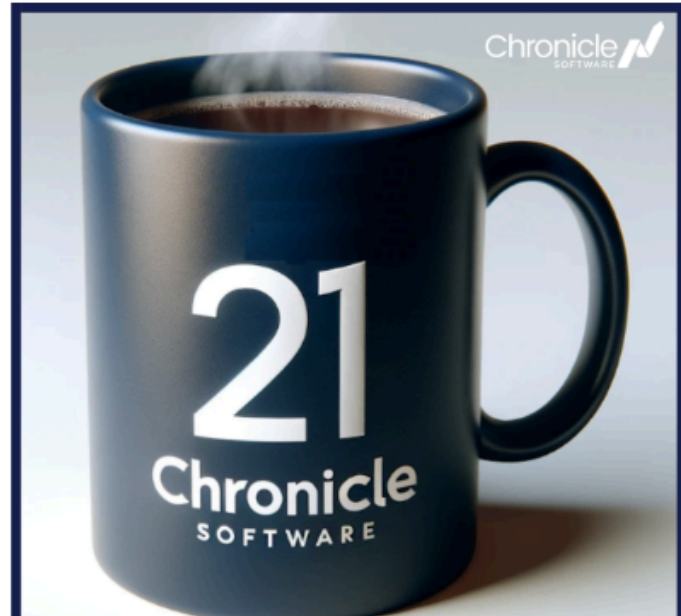

We are committed to delivering exceptional user experience and staying ahead of industry trends and want you to be part of the process of building a comprehensive product roadmap that prioritises features that matter most to you. Save the date and stay tuned to register soon. [Watch last year's highlights here.](#)

Latest Updates

Chronicle Tune now on AWS Marketplace

Chronicle Software is delighted to announce its accreditation as an Amazon Web Services (AWS) Partner. Following a diligent functional technical review by AWS, [Chronicle Tune](#), is now available directly from the [AWS Marketplace](#).

Chronicle 25 Release: New & Improved

In the Chronicle 25 release, we are excited to support Java 21. This update also brings numerous performance enhancements, improvements, and bug fixes. We continue to advance our libraries and improve testing, ensuring a robust, productive, and stable low-latency Java platform. [Read here.](#)

Abbey Cross x Chronicle Alliance

Chronicle Software is collaborating with AbbeyCross, the company reducing integration, transparency, compliance and continuity risk barriers in the fragmented Emerging Markets Payments industry, to build out its innovative ABX Platform and services. [Read here.](#)

“

From the outset, Chronicle has proved to be a great fit for AbbeyCross, enabling us to very quickly reap the benefits of its **trusted reputation and undoubted expertise**. We have been especially impressed with the responsiveness, flexibility and agility of their service delivery.”

Ben McDonnell
CTO, AbbeyCross
